

Spatial Gaussian Overlap  
 $e^{-\Delta r^2/(2\sigma_{\text{eff}}^2)} \approx 0.2$

$\mathbb{Z}_3$  Phase Coherence  
 $\cos^2(2\pi/3) = 1/4$

Combined  $\lambda^2$  Suppression  
 $0.2 \times 0.25 = 0.05 = \lambda^2$
